Sharewise Webinar

Disclaimer

This presentation has been prepared by Emyria Limited ACN 625 085 734 (Company or Emyria). This presentation is not a financial product or investment advice or recommendation, offer or invitation by any person or to any person to sell or purchase securities in Emyria in any jurisdiction. This presentation contains general information only and does not consider the investment objectives, financial situation and needs of individual investors. Investors should make their own independent assessment of the information in this presentation and obtain their own independent advice from a qualified financial adviser having regard to their personal objectives, financial situation and needs before taking any action. No representation or warranty, express or implied, is made as to the accuracy, completeness, reliability or adequacy of any statements, estimates, opinions or other information, or the reasonableness of any assumption or other statement, contained in this presentation. Nor is any representation or warranty (express or implied) given as to the accuracy, completeness, likelihood of achievement or reasonableness of any forecasts, prospective statements or returns contained in this presentation. Such forecasts, prospective statements or returns are by their nature subject to significant uncertainties and contingencies, many of which are outside the control of Emyria. To the maximum extent permitted by law, Emyria and its related bodies corporate, directors, officers, employees, advisers and agents disclaim all liability and responsibility (including without limitation any liability arising from fault or negligence) for any direct or indirect loss or damage which may arise or be suffered through use or reliance on anything contained in, or omitted from, this presentation. An investment in Emyria securities should be considered speculative and is subject to investment and other known and unknown risks, some of which are beyond the control of Emyria. Emyria does not guarantee any rate of return or the absolute or relative investment performance of Emyria securities. The distribution of this presentation including in jurisdictions outside Australia, may be restricted by law. Any person who receives this presentation must seek advice on and observe any such restrictions.

This release may contain certain forward-looking statements with respect to matters including but not limited to the financial condition, results of operations and business of Emyria and certain of the plans and objectives of Emyria with respect to these items. These forward-looking statements are not historical facts but rather are based on Emyria's current expectations, estimates and projections about the industry in which Emyria operates, and its beliefs and assumptions. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates", "guidance" and similar expressions are intended to identify forward looking statements and should be considered an at-risk statement. Such statements are subject to certain risks and uncertainties, particularly those risks or uncertainties inherent in the process of developing technology and in the endeavour of building a business around such products and services. These statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and other factors, some of which are beyond the control of Emyria, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward looking statements. Emyria cautions shareholders and prospective shareholders not to place undue reliance on these forward-looking statements, which reflect the view of Emyria only as of the date of this release. The forward-looking statements made in this announcement relate only to events as of the date on which the statements are made. Emyria will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this announcement except as required by law or by any appropriate regulatory authority.

All medicines carry risks and specialist prescribers, such as registered psychiatrists, are best placed to assess the suitability of a new medication against a patient's individual circumstances and medical history before proceeding. Adverse effects of MDMA include high blood pressure, increased pulse rate, faintness, and panic attacks, and in some rare cases it can cause loss of consciousness or trigger seizures. Other side effects include involuntary jaw clenching, decreased appetite, restless legs, nausea, headache, sweating and muscle/joint stiffness. Adverse effects of psilocybin can include temporary increase in blood pressure and a raised heart rate. There may be some risk of psychosis in predisposed individuals. The effects of MDMA and psilocybin are unlikely at low doses in the treatment regimens used in psychedelic-assisted psychotherapy while appropriately managed in a controlled environment with direct medical supervision. The risk profile of the MDMA inspired compounds is currently unknown.

The availability of these products is subject to the safety and efficacy of the products being tested through clinical trials. Emyria makes no representations or warranties as to the safety or efficacy of the products or the products' ability (or the ability of its key compounds) to be used in the treatment of indications such as PTSD. There are currently no approved products containing MDMA, psilocybin or MDMA inspired compounds that the TGA has evaluated for quality, safety and efficacy.

Emyria At A Glance

TGA rescheduled **two promising mental health treatments** July 2023

Private Health insurance funding Emyria's evidenced based **PTSD** and **Treatment Resistant Depression** programs

Durable and **sustained patient outcomes** six months post treatment

Emyria's programs in two states (**Western Australia** and **Queensland**)

Revenues from Private Health Insurance funding **have commenced**

Brisbane clinic marks the start of Emyria's **National Roll-Out**

Mental Health Is Australia's #1, Rising, Chronic Health Problem

Figure 2 : Types of serious illness by age and sex, 2009 to 2021

Inaki Ereno
Bupa CEO

Mental health is the new pandemic but the provision of mental health ... services is very fragmented, not only in Australia but everywhere.

May 17, 2025 - 9.00am

Major Funders Are Spending Hundreds of Millions Each Year on Mental Health

Private Health Insurers

\$2B

spent by Medibank on mental health hospitalisations in last 10 years,

\$219M/yr

in 2024 alone. ¹

Only 26% of insured adults

Department of Veterans' Affairs

The Government spends

\$300M/yr on veteran mental health each year. ²

Almost **three in four** (veterans) are estimated to have met criteria for a mental disorder at some stage in their lifetime. ³

Other Insurers

Life insurers ... paid out more than

\$2.2B in 2024

for retail mental health claims in 2024 ⁴

Change to classification of psilocybin and MDMA to enable prescribing by authorised psychiatrists

Published: 3 February 2023

[Listen](#) [Print](#) [Share](#)

From 1 July this year, medicines containing the psychedelic substances psilocybin and MDMA (3,4-methylenedioxy-methamphetamine) can be prescribed by specifically authorised psychiatrists for the treatment of certain mental health conditions.

MDMA-assisted therapy

for PTSD

Psilocybin-assisted therapy

for Depression

Total Addressable Market | PTSD

Adults with difficult to treat PTSD in Australia

Emyria Has Overcome Major Barriers To Psychedelic Delivery

And Is Now Building An Operational Moat

Australian Government
Department of Veterans' Affairs

DVA to fund psychedelic medicine for veterans with PTSD, depression

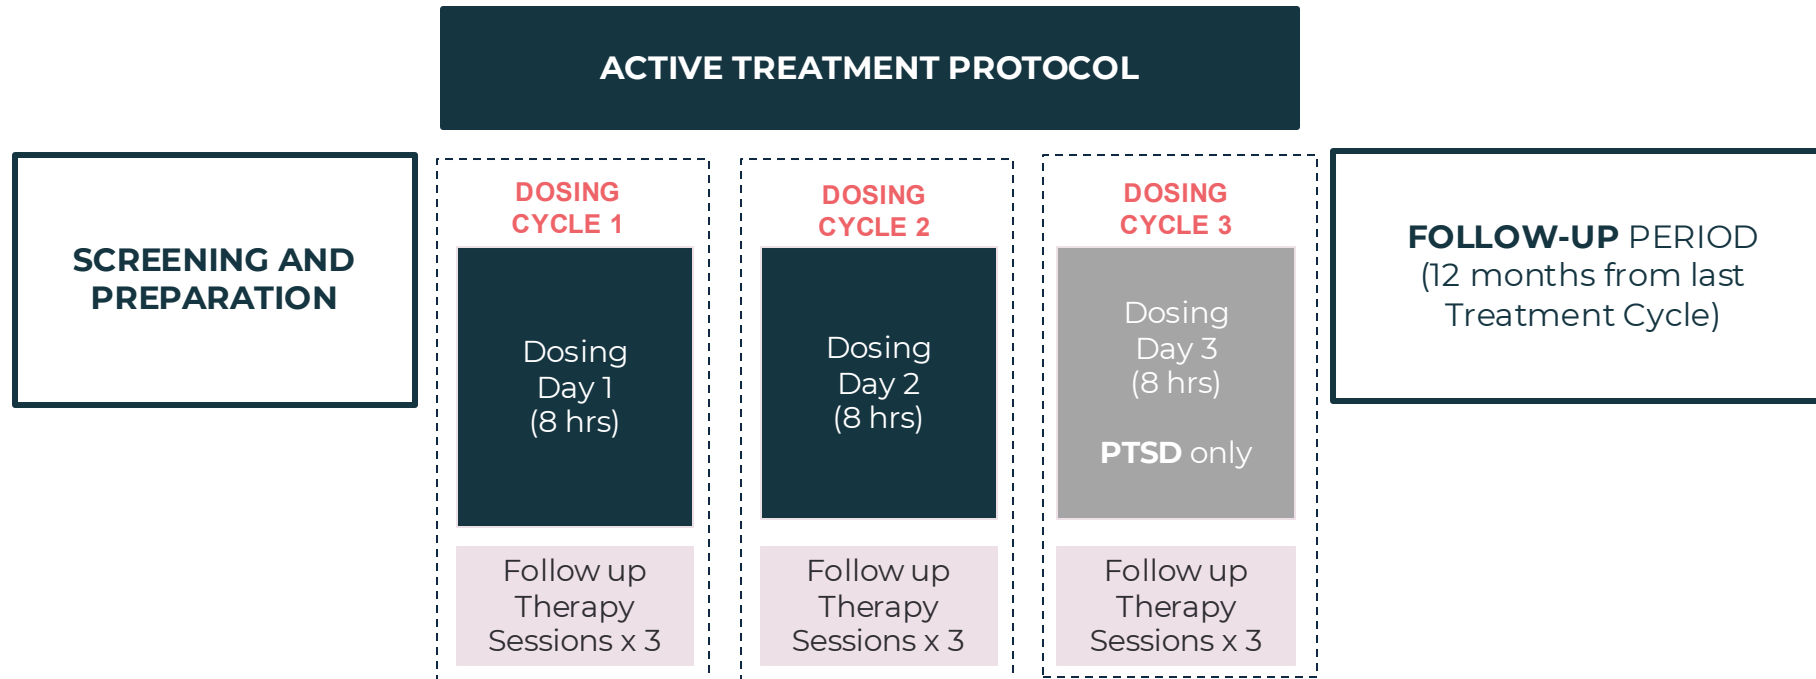

Psychedelic medicine is being pushed further into the mainstream with DVA to fund the therapies for ill veterans, as the TGA weighs up allowing it for palliative care

THE AUSTRALIAN

MDMA to treat PTSD?
Medibank says yes

Emyria's P-AT Treatment Model

Medication, ~90 hours of Supervised Intensive Psychotherapy, Follow-Up

Each dosing cycle (medication and therapy)
~\$10,000 / patient

Emyria's PTSD Program Is Delivering Results

Case Study Kate | From "Permanent Disability" To Back at Work

SOURCES:

1. The PCL-5 is a self-administered, 20-item self-report tool used to measure PTSD symptoms according to diagnostic DSM-5 criteria (Diagnostic and Statistical Manual of Mental Disorders, 5th Edition).

Kate's story: First responder

- **PTSD** due to cumulative workplace traumas
- Myriad of therapies: EMDR, in-vivo, ACT, CBT, mindfulness, somatic exercises, TMS, imagery rescripting, nightmare rescripting. Different psychotropic **medications**
- Stuck, terrified and tortured by her unrelenting symptoms and her psychological defenses.
- Despite all efforts and commitment, **treatment** and **therapy resistant**

Following MDMA-AT, Kate is back at work after nearly 5 years.

Emyria's PTSD Program | *Return-To-Work Progress*

To Date, 10 Out of 10 Patients With Work-related PTSD Have Returned To Work 6 M Post-treatment

Emyria's PTSD Program Is Delivering Results

Durable symptom and quality of life improvement, beyond 6 months from a single treatment

SOURCES:

1. The **PCL-5** is a self-administered, 20-item self-report tool used to measure PTSD symptoms according to Diagnostic and Statistical Manual of Mental Disorders, 5th Edition. Scores of <32 = "loss of diagnosis"

2. S. Mitchell 2023, G. Mitchell 2023
